Hi Laura,

It was nice meeting you yesterday. I will be revisiting that school again in a few weeks to review their IPM implementation program. Would you like me to keep you up to date on any rodenticide issues?

Thanks again for joining us on this initial meeting at the school.

Hi Adrian,

I understand from John Butler that you may be giving a talk next week on the implementation of the rodenticide mitigation decision. That is great. We are looking for ways to get correct information out to folks.

If you have any questions, Rusty Wasem is the Chemical Review Manager for the rodenticides and he knows this decision really well. I'm sure that Rusty will be glad to talk to you.

His phone number is 703 / 305 6979 and I have copied him on this message as well.

John and I had a very good interaction yesterday with DC public school officials on their IPM programs. Hope you are also seeing positive

things re rodent control products in Region 2.

Best regards,

Laura Parsons
